ePoster FAQs

What is an ePoster display at Net Zero Clinical Care?

An ePoster at Net Zero Clinical Care provides presenters with the opportunity to outline new information, ideas, case studies or projects and to celebrate the successes of an individual or organisation.

ePosters should not advertise any products or services.

ePosters will be displayed on our ePoster platform before and after the event.

How do I confirm my ePoster at Net Zero Clinical Care?

Registration for poster presenters is now open here. Please use the following information to register to present your poster at the event:

1. [Click here to register for in-person](#) or [click her to register virtually](#)
2. Select 'Poster Presenter' as the attendee type
3. Enter the poster presenter verification code **nzcposter**
4. Click 'complete registration' to confirm your registration.

You must ensure the following instructions are followed to confirm your ePoster.

- **To confirm the ePoster display, the nominated presenting author must register to attend the event (14 July 2023) by Friday 23 June 2023.**
- **The presenting author's registration will be linked to the confirmed ePoster, providing a record of attendance and ensuring that you receive the information to submit your ePoster for display.**
- **We will only contact authors who have registered to attend the conference by the Friday 23 June deadline with a submission link to upload their ePoster.**

When will my ePoster be viewed?

Your ePoster will be displayed onsite on our electronic screens during the event (14 July 2023). Your ePoster will be searchable on all electronic screens.

Your ePoster will also be available on our ePoster platform before, during and after the conference.

What if the incorrect presenting author is listed?

If you are unable to attend the conference, you are more than welcome to nominate a colleague to submit your ePoster on your behalf.

Unfortunately, you cannot log back in to amend the presenting author yourself. Therefore, if you would like to inform us of a change in the presenting author, please email their name and email address, along with the title of the poster they will be bringing for display, to rvangucci@bmj.com

****Please note: we operate a strict ONE ePoster display per presenter policy, and we ask any presenters nominated to present multiple posters to choose one to present themselves, and allocate their additional ePosters to co-authors/colleagues. Please ensure your replacement is not already attending to display an ePoster.****

How do I submit and upload my ePoster?

We will only contact authors who have registered to attend the conference by the Friday 23 June deadline with a submission link to upload their ePoster.

If there have been any changes to my project do I need to update you?

No, but feel free to update the ePoster that you submit for upload with your latest findings. Please ensure the authors name and title remains the same.

How will posters be presented at the event?

The posters will be displayed in-person on large screens and will also be available on the online ePoster platform.

Will there be oral presentations for poster presenters at Net Zero Clinical Care ?

Yes, we will provide an area for you to present your work, if you choose, at the conference. We will send further information and instructions on how to sign-up closer to the event.

Can I get a certificate confirming that my ePoster was displayed at the conference?

Yes, your certificate will be sent to you via email two weeks after the event.

Can I display the Net Zero Clinical Care logo on my poster?

Net Zero Clinical Care does not allow the use of BMJ, UKHACC, or any conference affiliated logos, to be displayed on posters at the event.

Does my ePoster have to be in English?

Yes, all ePosters need to be in English; your abstract will be unsuccessful if submitted in another language.

How to design and create your ePoster

What is an ePoster display?

An ePoster at a conference is a great way to showcase your improvement projects and help others learn from your strategies and experiences. Delegates will have the opportunity to browse posters from our e-boards throughout the duration of the conference.

All ePosters must be created in PowerPoint 2007 or newer. You must set the dimensions of your ePoster to: **Landscape: width 140cm by height 70cm (width: 55in x height: 27.5in).**

We will not be accepting any changes after the deadline, or at the event, so please follow these instructions carefully.

- Your ePoster should be in landscape orientation
- Number of pages (slides): **one** (1).
- Minimum suggested font-size: 24 (20 for references).
- For embedded images prefer .jpeg or .png file formats in a resolution of 72 dpi.
- Do **not** use animated effects, "animations" and videos.
- **Before submitting, save your poster as a PDF file. All recent versions of PowerPoint and most other software applications allow you to save your poster as a PDF file from the "File > Save as" menu or through the "File > Print > as .PDF" option.**

How to set up your presentation?

1. Open microsoft powerpoint
2. Click of 'design'
3. Click on 'slide size'
4. Click on 'custom slide size...'
5. Change the orientation to landscape
6. Change the width to 140cm
7. Change the height to 70cm (width: 55in x height: 27.5in)
8. Click 'okay'

Top tips for designing your ePoster

The aim is to tell a story that is clear and inspires others. It should communicate all the key points you want to get across without any additional explanation.

1. **Title:** The title should make it instantly clear what the poster is about. Do not use abbreviations or acronyms as the person viewing your poster may not know what these mean. Try to make it snappy and attention grabbing; you want your work to stand out among hundreds of other posters
2. **Section headings:** Use section headings to make key messages on your poster stand out
3. **Word count:** The person viewing your poster should be able to understand the key messages from it in 3 to 5 minutes and read the text in under 10 minutes. You may find it effective to reduce the number of words in your poster. Try not to use long sentences and cut out words that do not add meaning to your sentences. Use phrases or bullet points

4. **Pictures and diagrams:** Pictures and diagrams add visual interest to your poster. Infographics are also useful for displaying information at a glance. Remember to ensure your pictures are high enough quality to be printed at a large size
5. **Contact information:** Adding your email address or Twitter handle gives people the option to get in touch if they want to know more about your work.
6. **Key messages:** Viewers may not have the time or wish to read all your text. A succinct introduction and clearly outlined learning points will help other delegates to understand your main messages.

Some tips on how to make a great ePoster

What makes a poster good?	Considerations
Very clear graphs that are easy to understand	Not too text heavy
Tells a story using clear headlines	Include contact details
Colour scheme makes it easy to read	Make sure your graph is large enough to read
Use of pictures brings the poster to life	Font size
Key learning points clearly outlined	
Clear title explaining project	

Details on how to submit your ePoster will be available in June 2023 after the poster registration deadline.
